AGILE LAB MIDTERM

NAME:- ARUN C

REG NO: 23MIS0445

QUESTION:-

2. Simple Static Web page.

TASK : CI and CD

- Write the code in Visual Studio and push it to your GITHUB repository.
- Modify the code and commit the updates back in GITHUB.
- Using Jenkins configure the job as pipeline and create the stages for the CI and CD process.
- Containerize the application using Dockerfile and display the stages in stage view in Jenkins.
- Create kubernetes cluster and visualize the deployment in the given node port.

d. The price list of the items
